

THERE WITH CARE.

Two Communities. One Promise:

you are not alone

There With Care began with a simple belief: when a child is facing a medical crisis, no family should have to face it alone.

What started in Colorado has grown into a **community of care reaching families in both Colorado and the San Francisco Bay Area**. We have had the privilege of walking alongside thousands of families during some of the most difficult and uncertain moments of their lives.

Over the years, we have provided **more than 16,000 families** with the practical support that can make an overwhelming time just a little more manageable: nourishing food, transportation, housing assistance, essentials for children and parents, and, perhaps most importantly, the reassurance that someone is there.

Because the impact of There With Care is about **more than a grocery delivery or a gas card**. It is the parent who can stay at the hospital instead of worrying about how they will get home. It is a family who can open their refrigerator and find food waiting for them. It is a sibling who feels remembered. It is a parent who, in the middle of an unimaginable season, discovers that their community has not forgotten them.

Volunteers, donors, medical partners, staff and community leaders have made that promise possible. Together, we have built something far greater than a program. We have built a community that understands that care is not just about treating illness. It is about caring for the whole family.

We are deeply grateful to everyone who has been part of this journey, from those who believed in There With Care in the beginning to those who continue to show up today. Every meal prepared, every mile driven, every dollar given, and every family supported is part of the same powerful message:

You are not alone. We are here.

With Gratitude,
The Colorado and Bay Area There With Care Teams

Connecting With Families

“Those simple words really helped to carry her through and to get her home and feel proud of everything she had accomplished.”

– Julie Hess, Program Coordinator

family story

IVANNA'S STORY OF COURAGE AND UNWAVERING HOPE

Ivanna is a micro-preemie who was born at just **24 weeks and 6 days**, weighing only **445 grams (less than one pound).** She has spent 124 days in the NICU at Lucile Packard Children's Hospital, and her family's journey from Hollister, California has been one of incredible strength, sacrifice and hope.

Shortly after birth, Ivanna underwent abdominal surgery. Because she was so tiny, complications led her doctors to pause the procedure and focus on stabilizing her. She is now waiting for the final stage of her surgery. Through it all, she keeps showing her resilience. **She now weighs 6 pounds, 9 ounces**, a remarkable milestone. Though she is still intubated and has a long road ahead, she grows stronger every day.

As a single mom, Ivanna's mother balances work with commuting to the hospital during the week and spending every weekend at her daughter's bedside. **There With Care's transportation support has eased that burden**, allowing her to focus on what matters most: being there for Ivanna.

Mom shared that even in the hardest moments, knowing she is not alone has brought her comfort and strength.

Connecting With Families

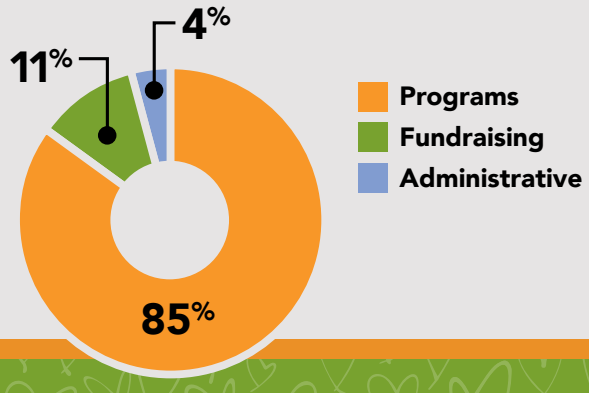

"There With Care's Community has made us feel like we're not alone and treats us like family."

– Kristen, Lilah's Mom

BIN BLESSED *care that shows up*

Since 2015, Bin Blessed has turned everyday generosity into meaningful support for families served by There With Care. **Founded by Cy and Bruce DeBoer,** this grassroots effort has grown into an extraordinary community of giving. Through collection bins throughout the community, the Bin Babes gather essential items that help ease the burden on families facing a child's medical crisis.

The members of Bin Blessed understand something important: sometimes, it is the small things that make the biggest difference. A package of diapers. A household essential. Something a family needs but simply does not have the time, energy, or resources to find. Every single item represents someone in the community asking, **"What can I do to help this family"?**

Since 2015, the total value of items donated by Bin Blessed is

$1,336,153

- 122,175 Diapers
- 215,557 Baby Wipes
- 4,137 Holiday Gift Bags
- 44,282 Pounds of Food
- $183,183 Toys/Clothes/ Baby Items
- $734,893 In-Kind Total
- $601,260 Cash Donations

"We focus on these families and what they need. Our ONLY goal is to make the biggest impact for There With Care. They provide such thoughtful, meaningful services for these families during an incredibly difficult time," says Sheri Flaherty, President of Bin Blessed. "I can't imagine not being involved."

Year after year, the Bin Babes remind families that they matter, their families matter, and their community is here for them. We are deeply grateful for this remarkable partnership and for showing up, year after year, for the families who need us most.

GET INVOLVED

HOW YOU CAN BE THERE WITH CARE

There are many ways to be part of the community of care surrounding families facing a child's medical crisis. **Give your time** by delivering care bags, assembling care packages, or volunteering at events. **Give what you can** through a one-time or monthly donation, an in-kind gift from our wish lists, or an employer matching gift. You can also **bring your community together** by hosting a fundraiser or organizing a service project.

Every act of care—large or small—helps ease day-to-day pressures, giving families more time to focus on what matters most: their child.
